

**Spring Semester 2024**  
**IAMS/NTU Chemistry Weekly Lectures**

Thursday, 3:30 p.m., Dr. Poe Lecture Hall, IAMS, Academia Sinica (NTU Campus)

Date	Speaker	Title
02/29/24 Song-Pei Lecture Hall, NTU	Dr. Cheng-Yi Hou Postdoctoral Associate, Division of Science, New York University, Abu Dhabi, UAE	From nondynamic to dynamic polycyclic aromatic hydrocarbons
03/07/24	Prof. Chun-Fu Chang Department of Applied Chemistry, National Yang Ming Chiao Tung University	Ultrafast Dynamics in Complex Molecular Systems
03/14/24	Prof. Tzung-Fang Guo Department of Photonics, National Cheng Kung University	Magnetic field effects of the triplet-triplet exciton annihilation process to fluorescence in polymer light emitting-diodes
03/21/24	Prof. Dehui Wan Institute of Biomedical Engineering, National Tsing Hua University	Design of Optical Materials for Nanomedicine and Energy-saving Technology
03/28/24	Prof. Yen-Chun Lee Department of Chemistry, National Cheng Kung University	Functional peptides in different dimensions
04/11/24	Prof. Hsin-Yi Chen Department of Engineering and System Science, National Tsing Hua University	Revolutionizing materials design and development by computational simulations
04/18/24	Prof. Li-An Chu Department of Biomedical Engineering and Environmental Sciences, National Tsing Hua University	Microscopy for big and small
04/25/24	Dr. Tien-Ming Chuang Institute of Physics, Academia Sinica	Direct Visualization of Electronic Liquid Crystal Phases in Correlated Dirac Nodal Line Semimetals
05/02/24	Dr. Ming-Hsi Chiang Institute of Chemistry, Academia Sinica	Fe-S Janus complexes: biomimic catalysts and molecular agents toward energy conversion and biomedical applications
05/09/24	Prof. Tse-Ming Chen Department of Physics, National Cheng Kung University	(To be announced)
05/30/24	Dr. Michitoshi Hayashi Center for Condensed Matter Sciences, National Taiwan University	(To be announced)
